REFRIGERATED ARI DRYER

RTM SERIES

High-Capacity Cycling Refrigerated Air Dryer The Aircel RTM Series (2,500 - 30,000 scfm) utilizes high efficiency compressors with defined loading and unloading capacities and a thermal mass medium for energy storage. The refrigeration system cools the thermal mass medium to a predetermined lower temperature. Once that temperature is reached, the system goes into standby mode until the temperatur...

EQUIPMENT START-UP & SHUT DOWN PROCEDURE

START-UP PROCEDURE Connect the power supply to the proportioner per the manufacturers recommendations. If using a generator, turn on and let warm at idle speed for approximately 10 minutes. If using shore power, connect to an approved breaker with the recommended electrical wire. Inspect the condition of the DOP TSL in the iso wet-cup. Change the pump lube before it becomes a gel, or when it becomes...
